Translation Workspace Subscription for Lionbridge Suppliers

Translation Workspace is the industry's first Software as a Service (SaaS) translation memory solution. It is also Lionbridge's preferred translation memory tool, although some projects are executed in other tools according to customer requirements.

What are GeoWorkz and Translation Workspace?

GeoWorkz is the e-commerce platform where you will log in to manage and access your Translation Workspace account. At www.geoworkz.com, you can perform the following tasks:

- Manage your account (contact details, subscription type, users, payment method, etc.)
- Submit support requests
- Access training material such as documentation, streaming videos and webinar sessions
- Single Sign On with Lionbridge CAT (Computer Aide Translation) tool, Translation Workspace

Translation Workspace is the actual CAT tool where all translation work is completed. You can also log in directly to your account at translate.translationworkspace.com using your GeoWorkz credentials. There are different components that you will need to learn in order to use the tool:

- Translation Workspace Web Interface
- Translation Workspace XLIFF Editor
- Translation Workspace MS Word Plug-in
- Translation Workspace Tools
- Translation Workspace Online Review

How do I sign up for a Lionbridge Supplier GeoWorkz and a Translation Workspace account?

Once your vendor record is active, you will receive a welcome email from GeoWorkz with your account details (user name, tenancy name and account number). We have created this account for you so that you can get started with your own subscription as quickly as possible. **You will have 48 hours to set up your password.** After that period, you will have to reset your password using the GeoWorkz Login page.

What is the Start Up plan?

If you are eligible, you will be provided with a Start Up promotional plan. You will not be charged any subscription fee, and we will not collect any payment information from you up front.

This promotional plan expires when you receive more than 30,000 words from Lionbridge in a given month. At that time, you will be presented with the option to either cancel your promotional plan or migrate to a paid plan.

The Start Up plan is only available if you are working against a TM that exists under the Lionbridge tenancy. If you would like to work on your own projects, you must upgrade to a paid plan.

If you choose to create a TM for your own projects (instead of subscribing to a Lionbridge TM using a token) and work from the Translation Clients against that TM, you will be metering words inside your own tenancy and will not be eligible for a Start Up plan. There is a word meter located in the Translation Workspace tab (see *screenshot below*) at GeoWorkz.com, which will increase when you do any personal work using your own Translation Workspace tenancy.

The screenshot displays the GeoWorkz user interface. At the top, the navigation bar includes 'HOME', 'SUPPORT', 'PRODUCT', 'CONTACT', and 'GEOWORKZ TEAM'. The main header area shows 'HOME / TRANSLATION WORKSPACE'. On the left sidebar, there are sections for 'GEOWORKZ TEAM' (with a location pin for 'NETHERLANDS'), 'Translation Workspace', 'My Account', and 'Manage Users'. The main content area is titled 'TRANSLATION WORKSPACE' and features a 'Subscription Usage' section. This section contains a progress bar showing '10,000 Words remaining' out of a total of 10,000. Below the progress bar, there are several status messages: '10,000 words per month and 2 license(s) in your subscription (Agency)', 'Word Usage through 11/2/2017', 'You are currently subscribed for extended support', and a notice about a plan change to a 'Freelancer monthly plan, 1 User, 5000 words per month, \$14 per month' effective on Saturday, March 31, 2018. A 'CANCEL ACCOUNT' button is visible at the bottom right of the subscription usage section.

Further Information

For more detailed information, you can log in to GeoWorkz.com to access the Support pages.

How do I submit support requests?

You can submit support requests by logging in to GeoWorkz.com and clicking on the Support button at the top of the page. This will open up the support section with a navigation pane on the left hand side where you can click on "Submit Support Request" to complete the available form.

Alternatively, you can also use the [Contact](#) page that will create a support request if you cannot login to GeoWorkz.com

How do I reset my password?

If you need to reset your password, you can click on the ["Forgot Credentials" link](#)

How do I download Translation Workspace Clients (MS Word Plug-in and XLIFF Editor)?

If you need to download the Translation Workspace Translation Clients, you can do so from the following locations:

From Translation Workspace

- 1- Log in to translate.translationworkspace.com using your GeoWorkz credentials
- 2- Click on the Resources menu at the top and then select "Download"
- 3- A new tab will appear with the most updated versions of both Translation Clients. We encourage you to install both applications

From the GeoWorkz Portal

- 1- From the GeoWorkz.com home page, scroll down to the "Downloads" section.
- 2- Click on "Translation Clients" link to open the installer page in Translation Workspace Web Interface (it is required to be logged in).
- 3- Click on the Resources menu at the top and then select "Download"
- 4- A new tab will appear with the most updated versions of both Translation Clients. We encourage you to install both applications

How do I access the available training material?

As a GeoWorkz subscriber, you also have access to free instructor-led training, streaming training, help systems, reference documentation, and Basic Support. To take advantage of these offerings, please log in to GeoWorkz.com and visit the [Resources Training Section](#). In particular, we recommend the following streaming training materials to start with:

- Introduction to Translation Workspace
- Asset Aliasing
- Translation Workspace Client - XLIFF Editor OR
- Translation Workspace Client - Microsoft Word Plug-in
- Introduction to File Pre/Post Processing

We also have detailed reference documentation and help systems, and regularly scheduled instructor-led training sessions. If you still need more help, please do not hesitate to let us know by asking detailed questions using the form "Support > Submit a Support Request".

Service Partner Portal (SPP) Additional Information

For additional information, you can view the “Translation Workspace for New Lionbridge Suppliers” webinar in the Translation Workspace section of the Lionbridge Service Partner Portal (SPP).
